

DCM HIPPOFERT®

Technical description

Organic soil improver based on dried cow manure with 50% organic matter, in crumble-form.

Characteristics

- dried horse manure
- high content of dry and organic matter due to the drying process, which ensures a light and crumbly soil structure
- increased capacity to retain water and nutrients
- dried and heat-treated in accordance with the hygiene requirements of Council Regulation EC1774/2002 and because of this free from weeds and pathogens
- safe for both plants and soils
- can be used until just before sowing or planting, without risk of burning
- suitable for use in organic agriculture – only contains raw materials authorized in Annexe I of the E.U. Regulation (EC) 889/2008 on the biological production method and Amendments
- crumble-form, easily applicable, also on rough terrain

Packaging

bags of 20 kg (crumble) – Palletloading 720 kg (= 36 bags) / Euro-Pallet

Form

crumble-form

Instructions for use

The exact dose depends on the needs of the crop, the time of application, the nutrient reserve in the soil and the intensity of watering.

VEGETABLES

- fruiting vegetables 15 - 25 kg/100 m²
- leaf vegetables 15 - 25 kg/100 m²
- tuberous and root vegetables 15 - 20 kg/100 m²
- other vegetables 15 - 25 kg/100 m²

FRUIT

- planting 15 - 30 kg/100 m²
- maintenance 15 - 20 kg/100 m²

TREE NURSERY

- planting 20 - 25 kg/100 m²
- planting (in plant holes) 2 - 5 g/L
- maintenance 15 - 20 kg/100 m²

LAWNS

- laying-out 15 - 25 kg/100 m²
Spread before sowing or placing of lawn carpet rolls and work into the top layer (25 cm).
- maintenance 15 - 20 kg/100 m²

ORNAMENTAL GARDEN

- roses & flowers 15 – 25 kg / 100 m²

POTTING SOIL

.....2 – 5 g/L

Feel free to ask our specific advice, adapted to your plants and cultivation system.
